Subject Index to Volume 21

Prepared by the Editor, who solely is responsible for any error contained in this index.

Forecasting

The Estimation of a Cusp Model to Describe the Adoption of Word for Windows (Rense Lange, Sean R. McDade, and Terence A. Oliva), 15–32.

Market Analysis

The Estimation of a Cusp Model to Describe the Adoption of Word for Windows (Rense Lange, Sean R. McDade, and Terence A. Oliva), 15–32.

Selecting Influential Business-to-Business Customers in New Product Development: Relational Embeddedness and Knowledge Heterogeneity Considerations (Joseph M. Bonner and Orville C. Walker, Jr.), 155–169.

Internationalization and the Dynamics of Product Adaptation—An Empirical Investigation (Roger J. Calantone, S. Tamer Cavusgil, Jeffrey B. Schmidt, and Geon-Cheol Shin), 185–198.

Linking Product Development Outcomes to Market Valuation of the Firm: The Case of the U.S. Pharmaceutical Industry (Anurag Sharma and Nelson Lacey), 297–308.

High-Technology Service Innovation Success: A Decision-Making Perspective (Allard C. R. van Riel, Jos Lemmink, and Hans Ouwersloot), 348–359.

New Product Planning

Selecting Influential Business-to-Business Customers in New Product Development: Relational Embeddedness and Knowledge Heterogeneity Considerations (Joseph M. Bonner and Orville C. Walker, Jr.), 155–169.

Managing a Portfolio of Interdependent New Product Candidates in the Pharmaceutical Industry (Gary E. Blau, Joseph F. Pekny, Vishal A. Varma, and Paul R. Bunch), 227–245.

Responsive and Proactive Market Orientation and New Product Success (John C. Narver, Stanley F. Slater, and Douglas L. MacLachlan), 334–347.

Supportiveness of Organizational Climate, Market Orientation, and New Product Performance in Chinese Firms (Yinghong Wei and Neil A. Morgan), 375–388.

Organizing for Innovation

FROM EXPERIENCE: Creating Synergy between Marketing and Research and Development (Gail L. Rein), 33–43.

Reputational Effectiveness in Cross-Functional Working Relationships (Edward U. Bond, III, Beth A. Walker, Michael D. Hutt, and Peter H. Reingen), 44–60.

The Impact of Market Orientation, Product Advantage, and Launch Proficiency on New Product Performance and Organizational Performance (Fred Langerak, Erik Jan Hultink, and Henry S. J. Robben), 79–94.

Links between Internal and External Cooperation in Product Development: An Exploratory Study (Bas Hillebrand and Wim G. Biemans), 110–122.

Organizational Learning and New Product Introductions (Steven C. Michael and Tracy Pan Palandjian), 268–276.

Corporate Culture and Commitment: Impact on Performance of International New Product Development Programs (Ulrike de Brentani and Elko J. Kleinschmidt), 309–333.

Responsive and Proactive Market Orientation and New Product Success (John C. Narver, Stanley F. Slater, and Douglas L. MacLachlan), 334–347.

Supportiveness of Organizational Climate, Market Orientation, and New Product Performance in Chinese Firms (Yinghong Wei and Neil A. Morgan), 375–388.

Product Concept

Harnessing the Creative Potential among Users (Per Kristensson, Anders Gustafsson, and Trevor Archer), 4–14.

PRACTITIONER NOTE: A Response to Pullman et al.'s (2002) Comparison of Quality Function Deployment versus Conjoint Analysis (Gerald M. Katz), 61–63.

Visualizing the Self: Exploring the Potential Benefits and Drawbacks for New Product Evaluation (Darren W. Dahl and Steve Hoeffler), 259–267.

The Effect of Concept Formulation on Concept Test Scores (Gavin Lees and Malcolm Wright), 389–400.

Value Creation by Toolkits for User Innovation and Design: The Case of the Watch Market (Nikolaus Franke and Frank Piller), 401–415.

Product Development

FROM EXPERIENCE: Creating Synergy between Marketing and Research and Development (Gail L. Rein), 33–43.

Reputational Effectiveness in Cross-Functional Working Relationships (Edward U. Bond, III, Beth A. Walker, Michael D. Hutt, and Peter H. Reingen), 44–60.

Changing Strategies and Tactics for New Product Development (John E. Ettlie and Mohan Subramaniam), 95–109.

Links between Internal and External Cooperation in Product Development: An Exploratory Study (Bas Hillebrand and Wim G. Biemans), 110–122.

The Fuzzy Front End of New Product Development for Discontinuous Innovations: A Theoretical Model (Susan E. Reid and Ulrike de Brentani), 170–184.

Internationalization and the Dynamics of Product Adaptation—An Empirical Investigation (Roger J. Calantone, S. Tamer Cavusgil, Jeffrey B. Schmidt, and Geon-Cheol Shin), 185–198.

Product Development Time Performance: Investigating the Effect of Interactions between Drivers (Roberto Filippini, Luigi Salmaso, and Paolo Tessarolo), 199–214.

Linking Product Development Outcomes to Market Valuation of the Firm: The Case of the U.S. Pharmaceutical Industry (Anurag Sharma and Nelson Lacey), 297–308.

Corporate Culture and Commitment: Impact on Performance of International New Product Development Programs (Ulrike de Brentani and Elko J. Kleinschmidt), 309–333.

Strategy

The Impact of Market Orientation, Product Advantage, and Launch Proficiency on New Product Performance and Organizational Performance (Fred Langerak, Erik Jan Hultink, and Henry S. J. Robben), 79–94.

Changing Strategies and Tactics for New Product Development (John E. Ettlie and Mohan Subramaniam), 95–109.

Managing a Portfolio of Interdependent New Product Candidates in the Pharmaceutical Industry (Gary E. Blau, Joseph F. Pekny, Vishal A. Varma, and Paul R. Bunch), 227–245.

Technology Innovation

PERSPECTIVE: Ranking the Technology Innovation Management Journals (Jonathan D. Linton and Narongsak Thongpapanl), 123–139.

The Fuzzy Front End of New Product Development for Discontinuous Innovations: A Theoretical Model (Susan E. Reid and Ulrike de Brentani), 170–184.

Disruptive Technology Reconsidered: A Critique and Research Agenda (Erwin Danneels), 246–258.

PERSPECTIVE: Ranking Business Schools on the Management of Technology (Jonathan Linton), 416–430.
